## National Agriculture Day at St. Augustine School

Bees! Bees! Bees! That was the title focus of the Bracken County Farm Bureau Women's Committee members as they visited the Kindergarten, 1st and 2nd grade classrooms at the St. Augustine School. Louise Moneyhon, Chair, and Janie Appelman, celebrated the 41st National Ag Day, March 25th, 2014 with those enthusiastic young students. Assisting them was Ron Nadicksbernd, local beekeeper, and owner/operator (with his wife, Jodi) of the Hillside Country Orchard located on 4979 AA Highway N. in Foster.

They Read the American Farm Bureau for Ag Book of the Year, "The Bee Man" by Laurie Krebs. This educational ag book introduced the students to the important and busy world of the honey bee, describing how beekeepers care for their bees, the different kind of bees (drone, queen, worker), how bees help us pollinate and how bees make delicious honey for us to enjoy. A challenge of a bee vocabulary and a beehive math activity was enjoyed by the students along with a honey tasting activity led by Mrs. Appelman. As her father had been a beekeeper, she brought home-made honey for the students to taste which had come from one of his hives. She also shared her memories of his operation. The ladies presented the book, along with the Educator's Guide as a donation to the school library.

tired in his beekeepers outfit, explained each important piece of his clothing and also his operation and the basics of the vital part that bees play in the natural world.

This event was in conjunction with KY Ag Literacy Week of March 23rd to March 29th.

The operation and function of the Farm Bureau Organization and of the Women's Programs and Activities

were also explained by the ladies with the help of "Fred-die, Farm Bureau".

Refreshments containing honey and honey-made products, ice cream and bottled water served on "bee" paperware were enjoyed.

Each student received a bag containing bee related educational materials and supplies from the Bracken

County Farm Bureau, The American Farm Bureau Federation for Ag, the KY state Beekeepers Association, and the KY Department of Agriculture - KY State Apiarist.

The Women's Committee greatly appreciate the Kindergarten class teacher, Amy Speakman, and the 1st and 2nd grade teacher, Nicole Cooper, Sister Nance, Amanda Lang, Shannon Smith, Bracken

County Cooperative Extension Agent for Family & Consumer Sciences, Ron Nadicksbernd and John Hirschfeld for their participation and assistance in helping to present this ag activity and showing these citizens of tomorrow the important and necessary role of the bee and of the American Farmer.

## Joint Town Hall/Impact of Drugs on the community meeting

On April 14, 2014 at 6:30 p.m. the Bracken County Sheriff's Office in cooperation with Sheriff Patrick Boggs' Mason County Sheriff's Office will be hosting a Town Hall meeting at the Minerva United Methodist Church located on KY 435 in Minerva. Sheriff Boggs and Chief Deputy Bob Scott will talk about the impact of drugs on our community.

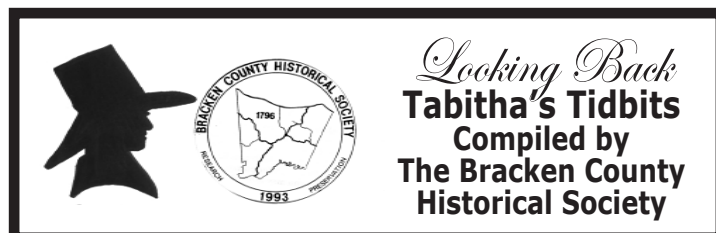

Drug activity in both counties continue to be a major problem and each agency continues to address these issues with the resources that are available to the Sheriff's Office. The Bracken County Sheriff's Office anonymous tip line for reporting of crime, phone number is 606-735-2578. This anonymous tip line can be used to report any type of crime, but is especially set up for the reporting of drug activity in the County. However, if the crime is currently in progress call 911 so that a dispatcher can send an officer out immediately. The tip line phone is not manned continuously and may not get answered until the following day or on Monday if left on the weekend. You can send tips to the Mason County Sheriff's Office on a link on their website masoncountysheriffky.com.

The Bracken County Sheriff's Office has initiated a new drug information program in the Bracken County

and Augusta School Systems called SALUTE (Students and Law Enforcement United Through Education). This program replaced the DARE program in the schools and gives us more freedom to address the needs of the community and issues in the schools. As part of this program they have guest speakers that come in and talk to the students about the drug problem in the county.

At this Town Hall meeting two of their guest speakers from SALUTE will be speaking to the citizens about their experiences with drugs and how they devastate the family. One of the speakers is a mother of a 24 year old recovering from drug addiction and the other speaker is a mother who lost her daughter and son-in-law to drugs. These two speakers are very passionate about their message and how devastating drugs are to families. Sheriff Niemeier would recommend that you come out and hear these two talk about their experiences, you will not be disappointed and it will definitely open your eyes to the drug problem.

Both Sheriff's Offices continue to take a strong stance against drugs and will continue to investigate and vigorously prosecute these cases. These investigations are very time consuming and can take up to 18 months to two years to complete.

#### Some History of the Court House

*Continued*  
It is steam heated throughout. A splendid water system and perfect drainage. It is surmounted by a tower to which is a clock which faces looking to the four quarters of the earth, and whose chimes will be heard recording time throughout the coming years.

All who have had to do with the building of this magnificent temple of justice are entitled to great credit for the energy and perseverance displayed. But special mention should be made of Dr. W. B. Wallin and Mr. John Kearns, by whose personal efforts and personal influence Twenty Thousand Dollars was raised in three days to continue the work on completion.

The Falls City Construction Company deserves especial credit for the splendid workmanship displayed in the erection of the house. The presence of its representatives here, Messers. Roland, Wilson and Langford, have been enjoyed by all our people. They are gentlemen in every sense of the word and have proven themselves to be thorough masters of the building art.

### Looking Back Tabitha's Tidbits Compiled by The Bracken County Historical Society

The committee who had the building in charge, Messers. Corlis, Kearns, Wallin, Cook, Bush, Hook, Thompson and Brooks, unremitting in their efforts to have house completely and speedily built. They are entitled to and no doubt will receive the thanks of the people of the whole County for the splendid manner in which they discharged the duties imposed upon them by the court and by the people.

The cornerstone was laid June 14, 1915. The crowd at the corner-stone laying Monday was estimated being in the neighborhood of 2,000, but many were kept away owing to the busy season of the year for farmers. The crowd was entertained during the day by some excellent music by the Germantown and Mt. Olivet brass bands.

During the entire day the new building was the object of much interest to the crowd, many of whom spent the greater portion of the morning inspecting, going from the basement to the third story, the general verdict being that it is one of the best built court houses in Kentucky outside of Lexington and Louisville.

### Thoughts and Meditations from the Scriptures

#### GIVE YOUR LIFE COMPLETELY TO GOD

It is a commonplace in conversion narratives for people to say that they wanted to hold back something in their life from God, some small area of their life that they refused to give up to God. Many have said that they refused to completely give their lives to God for fear that they would be missing out on some worldly pleasure. People contemplating religious vows know that they will be giving up having a family, acquiring wealth, and perhaps also their independence. But this holding on to our old lifestyle, including all the trappings of both material and social wealth only prolongs the bondage. Ironically, we are only truly free when we completely give our lives over to God, holding nothing back. Give your life completely to God and you will find complete joy. If you are holding back something from God, some area of your life that you refuse to let go of, then you are still in shackles and really are missing out on the complete experience of living for God. — *Christopher Simon*

*So give yourselves completely to God. Stand against the devil, and the devil will run from you. Come near to God, and God will come near to you. You sinners, clean sin out of your lives. You who are trying to follow God and the world at the same time, make your thinking pure. — James 4:7-8*

#### PRESBYTERIAN POTPOURRI by Les Grooms, pastor Augusta Presbyterian

Last Monday's soup supper had more participants than we have had before.

My friend, Bill Clos, pastor of Augusta United Methodist Church, had a serious accident this past week. After church on Mar. 3, we had lunch with Bill and on his way home he had a serious auto accident. He was banged up quite a lot but he managed to get to the Lenten service at his church on Apr. 2. There was large crowd present. Vidie Grace Kennard played the piano, Paul Mefford played his base guitar, and Susie Hargett led the singing. Bill led us with a short meditation and afterwards his church prepared a wonderful meal for all of us. Scott Hyden did the closing prayer and blessing of the food, and I took care of the offering.

This past Sunday we had 62 present for worship. Earl Bush led the worship service, Susie Hargett led the singing, Kay Grooms did the power point and Jean Appelman and Judy England served the communion elements. Susie Hargett sang a special song while the communion elements were being served. We did not have children's church because this was communion Sunday.

My sermon this week was about the dry bones that Ezekiel found. There are dry bones in the church and in the community even today.

Monday night we will have our soup supper and Wednesday we will have Lenten services in the St. Augustine Church. The food will be catered and donated by the Parkview. The last Lenten service will be back in the Presbyterian Church.

This past Sunday we had a number of visitors in our church. We always welcome visitors and hope that they will come back again.

# TRASH TALK

by: Mr. Recycle Bin & Ms. Pick-Up Litterbug

606-735-9960

Howdy Folks! By the time you read this, the 2014 NCAA Champion will have been crowned and while we hope it is the Kentucky Wildcats, we can honestly say that this tournament has been fun to watch and all teams have given it their very best! One has to admire these student athletes who have the discipline to go to physically intense game practices while at the same time maintaining their grades that ensures their scholarships! These young men and women take pride in themselves and give us all an example to model. Granted, not all are given equal athletic ability, but God has given each of us special talents that we need to use to the best of our abilities to make this world a better place! What are your talents that you can share?

We recently held our C.U.B. Party drawing and we were happy to read about the projects that some of our young folks carried out! Through their efforts, the environment is cleaner and Mother Nature has been given some much-needed breathing room! One young man and his Grandpa cleaned out a small dump that they discovered on the farm that contained old appliances and cans among other debris. They were able to collect the metal for recycling. Several of the entrants cleaned the roadways close to their homes, one young man routinely collects cans to recycle, another student picked up two bags of garbage

by cleaning a fence row and yards, and the winner in the random drawing for the \$100 prize was Destiny Whitehead who cleaned the Ohio river bank after high waters had receded. This project took her twelve hours to complete, but she had the discipline to stick with it to completion!

It is the responsibility of every capable person to maintain this earth that we call ‘our home’. Even though we have a property deed that says we own a certain portion of land, it does not give us the right to fill that portion of land with trash and debris. Even though we drive on highways that are constructed with our tax dollars, it does not give us the right to throw our garbage out the vehicle window! This land and these highways are only ours to use for the time we have been allotted on this earth and then it belongs to someone else. If we have abused this land, then we must have the discipline to clean up the mess we have made! It is no longer acceptable, or legal, to fill hollows, creeks and sinkholes with our castoffs. This earth will not get any bigger! If it lasts long enough and if we continue to trash it as we are, then eventually, we will be overcome with all that we throw away! Is this the world we want to leave our children?

We sincerely appreciate everyone who entered our C.U.B. Party and helped Mother Nature! If you have done some spring cleaning around the farm or house and have some trash you need to get rid of, there will be a roll-off dumpster located at Germantown behind the firehouse beginning April 9 and also one outside of Brooksville on the Old 19 hill. This dumpster will be on the right hand pull-off, approximately halfway down the hill when turning by Snappy’s Pizza. We urge everyone to be attentive to the amount of litter and debris that chokes the earth and to faithfully RECYCLE, REUSE and REDUCE to keep God’s earth clean, green and beautiful! Be seen’ you – *Bin & Bug.*

## Senior Citizen's Menu

Thurs., Apr. 10 - Meat sauce, spaghetti noodles, broccoli, garlic bread, cinnamon apple slices, milk.

Tues., Apr. 15 - Creamed chicken, baked potato, brussel sprouts, bread, Emerald pears, milk.

Thurs., Apr. 17 - Pot roast, boiled potatoes, brown gravy, carrots & onions, bread, mandarin oranges, milk.

## Whitehead 2014 C.U.B. Party winner

Destiny Whitehead, Augusta Independent High School Student, was the recent winner in the C.U.B. Party sponsored by Bracken County Solid Waste Coordinator, Tommy and Caroline Jefferson. Destiny worked for twelve hours to clean Riverside Drive after high waters receded. They congratulate Destiny and appreciate all those who entered the random drawing. They urge all citizens to help keep Bracken clean in 2014.

## Arthritis Exercise Class at the Bracken County Health Dept.

Did you know that nearly 50 million Americans have been diagnosed with arthritis, and in 2030 this number is projected to be 67 million?

One in five people in the United States is affected by arthritis, and almost two-thirds of these are younger than age 65.

The word arthritis literally means “inflammation of the joints,” but that’s a little misleading-not all forms of arthritis involve inflammation. Arthritis is a term used for more than 100 medical conditions. Some of these medical conditions include, gout, bursitis and tendinitis, to name a few.

On April 16th, at 10 a.m., the Bracken County Health Department will be offering a free arthritis exercise program. The program will last for six weeks meeting twice a week, on Mondays and Wednesdays. Call the health department at 735-2157 to register for the class.

## Child Find for Children with Disabilities in Need of Special Education or 504 Services

4/2/2014

**Child Find**  
The Augusta Independent School District keeps educational records in a secure location in each school and Board office.

The Augusta Independent School District obtains written consent from a parent or eligible student (age 18 or who is attending a postsecondary institution), before disclosing personally identifiable information to an entity or individual not authorized to receive it under FERPA.

For students who have been determined eligible for Special Education, educational records will be destroyed at the request of the parents when they are no longer needed to provide educational programs or services. The Augusta Independent School District may destroy the educational records of a child without parent request seven years after they are no longer needed to provide educational programs or services. Parents are advised that data contained in the records may later be needed for Social Security benefits or other purposes. The Augusta Independent School District may retain, for an indefinite period of time, a record of the student’s name, address, telephone number, grades, attendance records, classes attended, grade level completed, and year completed.

Children eligible for Special Education include those children with disabilities who have autism, deaf-blindness, developmental delay, emotional-behavior disability, hearing impairment, mental disability, multiple disabilities, orthopedic impairment, other health impairment, specific learning disability, speech or language impairment, traumatic brain injury, or visual impairment and who because of such an impairment need Special Education services.

Children eligible for 504 services include those children in a public elementary and secondary education program who have a current physical or mental impairment that currently substantially limits some major life activity which causes the student’s ability to access the school environment or school activities to be substantially limited.

Children eligible for the State-Funded Preschool program include three- and four-year-old children identified with disabilities and four-year-old children who are at-risk, as defined by federal poverty levels up to 150%. Preschool children eligible for special education must have an Individual Education Plan (IEP) instead of a 504 plan to receive State-Funded Preschool program services.

The Augusta Independent School District has an ongoing “Child Find” system, which is designed to locate, identify and evaluate any child residing in a home, facility, or residence within its geographical boundaries, age three (3) to twenty-one (21) years, who may have a disability and be in need of Special Education or 504 services. This includes children who are not in school; those who are in public, private, or home school; those who are highly mobile such as children who are migrant or homeless; and those who are advancing from grade to grade, who may need but are not receiving Special Education or 504 services.

The district’s “Child Find” system includes children with disabilities attending private or home schools within the school district boundaries who may need special education services.

The Augusta Independent School District will make sure any child enrolled in its district who qualifies for Special Education or 504 services, regardless of how severe the disability, is provided appropriate Special Education or 504 services at no cost to the parents of the child.

Parents, relatives, public and private agency employees, and concerned citizens are urged to help the Augusta Independent School District find any child who may have a disability and need Special Education or 504 services. The District needs to know the name and age, or date of birth of the child; the name, address, and phone number(s) of the parents or guardian; the possible disability; and other information to determine if Special Education or 504 services are needed.

Letters and phone calls are some of the ways the Augusta Independent School District collects the information needed. The information the school district collects will be used to contact the parents of the child and find out if the child needs to be evaluated or referred for Special Education or 504 services.

If you know of a child who lives within the boundaries of the Augusta Independent School District, who may have a disability, and may need but is not receiving Special Education or 504 services, please call 606-756-2105 or send the information to:

**Director of Special Education**  
Augusta Independent Schools  
207 Bracken Street  
Augusta, KY 41002  
Ph. 606-756-2105

**Section 504 Coordinator**  
Augusta Independent Schools  
207 Bracken Street  
Augusta, KY 41002  
Ph. 606-756-2105

If you know of a child who attends a private or home school within the boundaries of the Augusta Independent School District, who may have a disability, and may need but is not receiving Special Education services, please call 606-756-2105 or send the information to: **Director of Special Education, Augusta Independent Schools, 207 Bracken Street, Augusta, KY 41002. Ph. 606-756-2105.**

“Child Find” activities will continue throughout the school year. As part of these efforts the Augusta Independent School District will use screening information, student records, and basic assessment information it collects on all children in the District to help locate those children who have a disability and need Special Education or 504 services. Any information the District collects through “Child Find” is maintained confidentially.

Written *Policies and Procedures* have been developed which describe the District’s requirements regarding the confidentiality of personally identifiable information and “Child Find” activities. There are copies in the Principal’s office of each school, and in the Board of Education office. Copies of these *Policies and Procedures* may be obtained by contacting: **Director of Special Education, Augusta Independent Schools, 207 Bracken Street, Augusta, KY 41002. Ph. 606-756-2105.**

The District office is open Monday through Friday, from 8:00 a.m. to 4:00 p.m. The Augusta Independent School District provides a public notice in the native language or other mode of communication of the various populations in the geographical boundaries of the District to the extent feasible.

If you know of someone who may need this notice translated to another language, given orally, or delivered in some other manner or mode of communication, please contact the *Director of Pupil Personnel*, the *Director of Special Education* or the *Section 504 Coordinator* at the address or phone number listed above for the Augusta Independent Schools.

## Growing and cooking with herbs

*Submitted by: Shannon Smith, CEA for Family and Consumer Sciences*

We all want to eat food that tastes good. One of the most common ways we tend to make food taste good is by adding salt. Unfortunately, most American diets are too high in sodium. Diets high in sodium can raise blood pressure, which can lead to many major health issues including heart disease. Herbs provide a great way for us to limit our sodium intake while still consuming flavorful foods.

Herbs are also some of the easiest things to grow. The simplest way to start an herb garden is to buy plants and transfer them to a window box. Soon, farmers markets and garden centers will have plants on hand. You can also grow herbs from seed. Herbs need a lot of sun to grow, so make sure you plant them in an area that receives at least six hours of sunlight a day. Basil, sage, parsley, chives and rosemary will do well both indoors or outdoors as long as they have plenty of sun and protection from cold weather.

You can begin harvesting herbs once the plant has enough leaves to maintain growth. In early morning right before the dew dries, clip undamaged leaves that have a nice aroma. You can harvest annual herbs like sweet basil, dill and oregano until frost. Chives, mint, parsley and rosemary will grow for more than one season if they are protected from harsh cold. However, you should stop harvesting perennial and biennial herbs in late August, as the plants will need time to prepare for the winter.

Some herbs produce beautiful flowers, but if you plan to cook with herbs in your kitchen, harvest the leaves before the plant flowers. In addition, you can cut or pinch the flower buds back to prevent blooming. Once

## Letters To The Editor

Despite the fact that the school did not notify parents via snail mail, email, voice message or text, all of which the school has capabilities to do, I have learned that the Bracken County Board of Education has decided to make Good Friday a full day used as a make-up snow day.

The schools were off recently on a Thursday and Friday for a sports event and have had five days for spring break. Do we really need a spring break after all those snow days?

I am angered and saddened that the Board of Ed had put sports and spring break before God. My son will not be attending Bracken County High School on Good Friday so that our family can give the day our full attention. I hope others in the community will take a stand for this solemn Christian day and let the Board of Ed know that what they have done is wrong.

Most sincerely,

Grussing, husband and wife, dated January 22, 2008, filed November 10, 2008, recorded in Deed Book 188, Page 122, County Clerk's Office, Bracken County, Kentucky.

The property shall be sold to the highest and best bidder(s) and said purchaser shall be required to pay cash or the sum of ten percent (10%) of the bid price in cash deposit with the balance of the purchase price to be due and payable in cash or certified funds, within thirty (30) days from the date of sale. The purchaser shall be required to execute a bond, with good and sufficient surety, bearing interest at the rate of 12% per annum from the date which is thirty (30) days following the date of sale, until paid, and payable to the Master Commissioner.

The purchaser shall have the privilege of paying all or any part of the purchase price or paying said bond before maturity by paying the balance of the principal together with all accrued interest thereon. If the total purchase price is not paid in cash, the required deposit shall be applied to any expenses incurred by a default of the purchaser. Provided, however, in the event a party of this action is the successful bidder at the sale of the property by the Master Commissioner, then the said party, upon payment of the court costs and sale expenses and any liens or judgments that have been given priority herein over the lien and judgment of said successful bidder/party, shall have its bid credited against its judgment herein.

If the purchaser(s) fails to comply with the terms of the sale then, in such event, the Master Commissioner shall immediately resell the property upon the same terms and conditions as set forth herein, excepting only any necessary changes in the time and date of sale. Possession of the property herein sold shall be given to the purchaser after payment in full of the purchase price and confirmation of the sale by the Bracken Circuit Court. Pursuant to the Judgment herein, the purchaser shall be required to assume and pay all ad valorem property taxes assessed against the property for 2014 and all subsequent years thereafter. The title interest of the parties to the lawsuit will be conveyed without warranty by the Master Commissioner to the purchaser and the purchaser shall receive a deed to property upon payment of the purchase price in full (and costs of sale, if applicable) and after confirmation of the sale by Bracken Circuit Court, subject to any equity of redemption if the property does not sell for two-thirds of its appraised value.

### Eye Exam May Uncover Stroke Risk

People aged fifty years and older have every reason to schedule regular comprehensive eye exams, which may uncover eye diseases and conditions that can be helped with early treatment. In addition, there is also some evidence to suggest that a thorough eye exam may help to identify those who are at increased risk for a common type of heart-rhythm disorder. "Atrial fibrillation," which is common in older individuals, not only raises the risk of stroke, but it also triggers angina (heart-related chest pain) or heart failure in some people. If the ophthalmologist detects micro-bleeds or micro-aneurysms in the smaller vessels of the eye's retina, patients should consider consulting with their physicians about heart monitoring.

Taking care of yourself and your heart - inside and out - is a long-term commitment and also a goal to live a healthy life, one that is also harmonious. We suggest you call **KENTUCKY EYE INSTITUTE** at **606.759.7883 or 800.658.7282** for a comprehensive eye exam. You can trust your eyesight to our formidable knowledge and experience. ## MC&TC now offering lessons on Disc Golf

So what's all the excitement surrounding disc golf? Similar to regular golf, players use golf discs and aim for a Disc Pole Hole, a pole extending up from the ground with chains and a basket where the disc lands. The object of the game is to complete each hole in the fewest number of throws, starting from a tee area and finishing at the Disc Pole Hole.

Introduced in the early 70's, today disc golf has become incredibly popular and is one of the fastest growing games in the country. There are over 3,000 formal courses in the United States and many courses around the world. MCTC built an outdoor course on the Maysville

Campus that opened late last year. "With warm weather right around the corner, we are eager to see the course utilized," stated instructor, Ben Jones.

Disc golf is easy to learn. "If you can throw a Frisbee® and you like to have fun, you can play disc golf," stated Jones. "Players merely match their pace to their abilities, and proceed from there. It's a great way to spend time with family and friends." Jones is an avid disc golf player who has played a variety of courses over the last 5 years.

A two-hour beginner's course will be offered on April 24th from 6 p.m. – 8 p.m. Players will need to bring their own disc. For more information or to register phone 759-7141, ext. 66120. Pre-registration is required.

### Proposed Regional Waste Water Treatment Plant

Good Time For An Election: On April 16th at the Augusta Council Meeting, the Division of Water will visit to present info on proposed WWTP. Our current officials are pushing hard for the site proposed last April 4, 2013, in *The Bracken County News*, being on the far eastern end of East Second Street in Augusta. Site is less than 1500' from Augusta River Park and Boat Dock.

A few questions to be addressed:

1. Cost to residents of Brooksville and Augusta and homes on Route 19, 8.5 miles between the 2 cities. New customers will pay tap in fees plus monthly bill. Existing customers will probably see bills double.

2. Proposed site requires piping sewage from old plant 1.5 miles east to new plant then to be treated and released to flow past park and city. Not a good plan.

3. Previous cost analysis gave 3 options for site location. (1) Rebuild small plants in each city. (2) Augusta Regional Plant. (3) Wellsburg Regional Plant. Augusta Regional Plant was shown as most cost effective. This is totally a wrong analysis since it included an Industrial Park and 320 homes being built next to Industrial Park. We have no industry, no homes, no developer, only a horse park.

4. If regional is necessary, Wellsburg is more central in county. There is more development in that area. 3.4 miles of 1159 is to be reconstructed with truck lane from AA to Brooksville. Pipe could be laid with new highway. Augusta, Wellsburg, Brooksville distance is total of 11 miles with more customers and only 1 mile from Locust Creek with 60 plus homes.

5. If regional is not necessary it would be cheaper to replace both plants, not including Route 19 or Route 1159.

Please attend meeting and listen to options.

Spring a bit behind this  
year, but trophy  
smallmouth time is here

You hear about Lake St. Clair, Mille Lacs, Lake Erie and the upper Mississippi River as waters that produce the best smallmouth fishing in the United States.

As far as catching numbers of smallmouth with many of those larger than 4 pounds, you can't argue with the sentiment. However, to catch the largest specimens in the world, you need to fish in Kentucky and Tennessee.

This statement isn't regional boastful pride or being a homer, it is fact. The three largest smallmouth bass on the ESPN/Bassmaster Top 25 Smallmouth Bass list came from one water body: Dale Hollow Lake, which straddles the Kentucky-Tennessee line in south-central Kentucky.

Kentucky is blessed with three world-class smallmouth lakes: Laurel River Lake, Lake Cumberland and the upper section of Dale Hollow Lake that produced the world record.

The numbing cold of this past winter has fishing rhythms well behind most years. March is normally one of the best months of the year for trophies, but this year it will be April as water tem-

Kentucky Department of Fish and Wildlife Resources staff artist Rick Hill (left) and "Kentucky Afield" Television Host, Tim Farmer (right) admire a smallmouth bass Farmer caught from Dale Hollow Lake in early spring. Dale Hollow Lake, Laurel River Lake and Lake Cumberland hold some of the largest smallmouth bass in the world.

peratures are just now breaking into the upper 40s on these lakes.

In spring, smallmouth bass move from their winter hideouts - along steep points, bluffs or suspended above channel drops - toward their spawning grounds on gently sloping banks that run from shallow to medium-depth water.

Long, extended points that run well out in the lake also make good spring areas in these lakes as do the shallow ends of small coves that run off the main lake or a major creek arm.

Jerkbaits and swimbaits also fool smallmouths on sloping banks in spring. Anglers report catching small-

mouth bass above 4 pounds recently on Dale Hollow using Tennessee shad-colored swimbaits and clown-colored jerkbaits fished on gently-sloping pea gravel banks. Those banks with some grass on them are best.

Blade baits ripped off the bottom and allowed to settle again also work well in these spots. Watch your line intently when the blade bait sinks to bottom again as smallmouth often pick it off as it settles.

"These lakes have the potential to produce world-class specimens in spring-time," Williams said. "Now is the time to fish if you can."

Lake Cumberland reaching  
full pool this summer;  
good news for anglers

Biologists with the Kentucky Department of Fish and Wildlife Resources predict the return of Lake Cumberland to its normal summertime level will prove a boon to fishing in the coming years.

The U.S. Army Corps of Engineers announced Tuesday that the lake should return to its old level of 723 feet above sea level by mid-May. Lake Cumberland had been held at a lower level since 2007, while repairs to Wolf Creek Dam were underway.

John Williams, southeastern fisheries district biologist for Kentucky Fish and Wildlife, said the return of historic lake levels will boost fishing both in the lake and in the tailwater below it.

"It is going to flood all of that shoreline cover that's grown up during the draw-down," he said. "It is going to help black bass, sunfish and crappie. They will utilize that cover now and it will make for fun fishing."

Nutrients provided by decaying plants will help fuel growth at the base of the food chain, a boost that biologists refer to as the "new lake effect."

Jeff Ross, assistant director of fisheries for Kentucky Fish and Wildlife, noted the surface area of the lake will grow from 37,000 acres at its lowest to 50,250 acres this summer.

The plan to raise the lake to its old level stalled early this year, when researchers discovered the endangered duskytail darter had moved downstream from the Big South Fork of the Cumberland River while the water was down. Raising the lake back up could impact these fish.

The U.S. Fish and Wildlife Service and U.S. Army Corps of Engineers acted rapidly to complete a plan to ensure the survival of the darter.

## Cover Crop Demonstration Site

By: David Appelman, CEA  
Ag and Natural Resources

The Bracken County Extension Service is looking for a host farm to conduct Cover Crop Demonstrations for the 2014 growing season. The host farm must be willing to allow the public to visit the site for small workshops to view the different cover crops. Plans are to have 3 plantings of early spring, summer and fall cover crops. All the seed cost and drill expenses will be covered or other application expenses. The host farm will be required to provide a tractor to assist with seeding or ground preparation. If you are interested in serving as the host farm for this demonstration, please contact David Appelman at dappelma@uky.edu or 606-735-2141.

## Tobacco Growers Certification Trainings in April

All those who plan to grow tobacco in 2014 will be required to obtain a Grower ID Card and attend Tobacco GAP Certification. Below is a brief description of the ID System and certification.

The Grower ID System is a secure database of tobacco growers involved in the U.S. Tobacco GAP Program. The system, by assigning a unique ID number to each grower, will help growers easily keep track of and share their GAP compliance records with potential companies. Instead of a grower's GAP efforts being tracked only through their current contracting companies, growers will have their GAP information follow them from year to year regardless of marketing company. Temporary cards can be obtained by visiting www.gapconnections.com or the your local Extension Office will provide this service as a courtesy to growers without internet access.

Tobacco GAP Certification Training is scheduled:

- Wed., April 16th - 10 a.m. - Bracken Extension Office 606-735-2141; Mason Extension Office 606-564-6808; Lewis Extension Office 606-796-2732; and Robertson Extension Office 606-724-5796.

- Tues., April 22nd - 7 p.m. - Bracken Extension Office 606-735-2141; Maysville Comm. College, Fields Auditorium 606-564-6808; Lewis Extension Office 606-796-2732.

Enrollment in each session is required, call to reserve your spot.

## Check Alfalfa Fields for Winter Damage

By: David Appelman, CEA  
for Ag and Natural Resources

After recent visits to local alfalfa fields, it is evident that the extreme cold from this winter season has taken its toll on some of the crop. The fields or areas showing the most damage appear to be wet areas or soils that lack good drainage. If alfalfa does not replenish root reserves before going dormant, it may not completely fill the area in the soil that the tap root occupied. This allows water to gather around the root and a sudden freezing event will cause ice to form around the root. As the ice expands, it pushes the root out of the ground, sheering off the feeder roots and killing the plant. In some locations, plants were pushed 4 inches out of the ground.

In fields that exhibit this damage, it is important that a decision is made regarding the future productivity of the field. If damage is widespread across the majority of the field, you may consider rotating the field to another crop. Kill out any remaining alfalfa plants with tillage or chemical sprays and choose another crop that will meet your needs or fit in your rotation schedule.

A second option would be to No-till in additional red clover and grass seed. Due to a toxin that alfalfa leaves in the soil, new alfalfa seed will not germinate and that is why it takes one year rotation to another crop to break this cycle before the field can be reseeded to alfalfa. Red clover and grass seed will germinate without problems and can extend the life of a hay field.

A third option would be to utilize the remaining grass and apply nitrogen fertilizer. As long as the stand of grass is thick enough to still be productive, the nitrogen will enhance the yield and extend the use of field and produce needed hay.

If you are using a no-till drill, be sure and adjust the seeding depth to ¼ to ½ inch and no deeper. Planting too deep is the main reason for poor germination of forage crops. For more information on varieties or chemical use, please contact the extension office at 606-735-2141.

CEA for ANR

The Bracken County Extension Service will host an educational program, Targeted Bull Selection, on April 18<sup>th</sup> at 10:00. The presentation will be beneficial to anyone interested in learning how to improve the genetics of their herd through proper bull selection, but will be specifically geared toward understanding EPD requirements for the cattle genetics portion of the CAIP program. Dr. Darrh Bullock will be the presenter and this program will be broadcast from UK. The use of EPD's in selecting herd sires can help with numerous management issues that will benefit the profitability and productivity of the herd. Traits such as growth, calving ease, carcass, and maternal, all play a role in the management and future of your herd. **Attendance at this program will qualify for the Phase I Educational Credit.** With the busy planting season, there will be limited opportunities to get the required educational credit the rest of this year. Plan now to attend this meeting, or you may not qualify for your cost share.

## ‘We live our lives by intervals’ and Kentucky gave Big Blue fans 29 more

Tribute time for Kentucky’s basketball team? Yes. Winningest college basketball program in America is still Kentucky.

Nice run, fellas. Last six thunder runs were breath-taking gorgeous, good as it gets. Crowd following to Dallas was confirmation. But for a Kevin Ollie coaching gem UConn would be doing the what if routine today.

Shining moments? I could be the one human on Planet Basketball to say today let’s skip the if-onlys and just say lots of Moms went to bed happy 29 nights this winter. Never mind the other 11. And yes, the last one was tough.

So, from the throng of fair-minded and reasonable Kentuckians in Big Blue Nation, along with the constituency John Calipari calls crazy, thank you.

But let’s be real too. Whatever love affair there was it came late. Well after the odious bunker talk: “it’s us against the world, guys.”

From Big Blue Madness in, we all knew the drill. Win, win, beat UofL, sell some tee-shirts, let Cal do the talking, win s’more, then get the hell out of here for the NBA.

Tribute: We live our lives by intervals, don’t we?

Moments of joy, days of contentment, seasons of well-ness.

Grow certain we are wise and know enough,

In the end, one at a time, it’s how we handled intervals

Who we left smiling all.

Kentucky players handled the intervals well.

Thanks, guys. See you on television.

### HARRISON HEROICS

“It’s going to be a great story,” Aaron Harrison said a month ago in Columbia, South Carolina, moments after the lowest point in Kentucky’s winter of discontent. The Wildcats

seemed to shrug their shoulders after having had surrendered to Frank Martin’s Gamecocks. Nobody was happy, in particular citizenry of Big Blue Nation who pay their taxes in love, devotion in tee-shirts, face paint and expect in return more than they were getting.

Still, 19-year-old Harrison’s calm assessment then, and dramatics to follow, reminded me to a line from the movie Tombstone. Glassy-eyed Doc Holiday looks into Johnny Ringo’s face and remarks: “I dunno darlin’, there’s just something about im...”

There’s just something about young Harrison. In a month’s time his “It’s going to be a great story,” premonition, prophesy, whatever, became precisely that. In consecutive games his 3-pointers at the end to sent Louisville, Michigan and Wisconsin to land of Wait’ll next year!

Seven words in Columbia, South Carolina five weeks ago morphed into Clark Kent stepping into and out of a phone box. Kentucky’s transitional run to the pinnacle of Planet Basketball has been, well, “a great story.”

Fascinating too: The sweet innocence of youth, a teenager able to steel up, have nerve to step up to a game-decider shot not once, but three times. All while under the collective hot breath of a gazillion screaming human beings and television audience pouring down on him.

Imagine: 10 ... 9 ... 8 ... 7 ... 6 seconds. What would you have done?

Kentucky hoops, 2013-14, been a great story down the stretch. An ebb-and-flow drama with heroes and villains, ups, downs all wrapped into, “we’ll be back for the final seconds after these commercial messages” big finish.

Apparently, one teenager knew how it would be all the time. Maybe he wrote the script Still, no Hollywood producer would buy it.

All of which takes me back to Tombstone.

“I dunno, darlin’, there’s just something about ‘im,” this Aaron Harrison.

### CAREFUL WHAT YOU WISH FOR

Clamoring continues to pay college players (term student-athlete is passe’). ... form a players union! ... and, NCAA should dole out its billions in television revenue to the workers.

Gee, isn’t that socialism? On one hand, for television’s talking heads – be careful what you wish for.

Before Charles Barkley could say “what’s in your wallet?” college administrators would hire a Pay Scale Board and team of arbitrators.

Hypothetical test case: Should Breanna Stewart at UConn be paid same or more than Julius Randle at Kentucky? Must be a hearing, arguments, decisions, appeals and, where money is involved, discontent all round.

Be careful what you wish for.

On the other hand, amid the noise for justice for players, all is quiet on the ball coach front. Highest paid coach in college hoops 2013-14, according to USA Today, is Mike Krzyzewski at Duke. Bilas’s old boss.

Coach K raked in \$9,682,032, according to the newspaper. Next is Rick Pitino at Louisville, \$5,758,338 a year. John Calipari at Kentucky, Bill Self of Kansas and Billy Donovan of Florida are in the 4-5 million dollars-a-year club.

Ball coach pay has soared right alongside corporate NCAA’s warehouse of money. While Bilas and others rant about pay-for-play in college, where’s the clamor for a cap on coach pay?

Footnote: Looking ahead, status quo. Recruiting experts say Krzyzewski has the number one recruiting class for 2014-15, Calipari’s next wave of players at Kentucky is second.

### WORTH REPEATING DEPT.

Internet columnist: “The NCAA system for compensating players is antiquated. Unless there is revision, eventually kids who fuel the system will take their talents to semi-pro leagues where they can be paid fairly for hard work rather than watch

schools get rich.”

**Comment:** Semi-pro league option was a new idea when Elvis Presley was still singing in Las Vegas. Today, the NBA’s D-League is viable option to one-and-done.

### READERS (RIGHT) WRITE

“Richard Pitino’s Minnesota team won the NIT ... with Tubby Smith’s players, right? All those UK fans for all those years who said Tubby Smith won the (1998) NCAA Tournament with Rick Pitino’s players ... what goes around comes around.”

### PARTING SHOT

Arrangements for the UK team’s homecoming celebration on Tuesday, included an athletic department press release. Ironic and sad reminder how athletics at Kentucky are corporate captives..

To wit: “Other than IMG rightsholder, there may not be any live telecast, radio broadcast or internet streaming originating from inside Rupp Arena until 4:30 p.m. or the IMG/WKYT telecast has concluded, whichever is later.”

And so it goes.

# Redistricting of Magisterial Districts begins with May Primary, affecting voters polling locations

After the 2010 Census, Kentucky state government developed a redistricting event that would enable a more equal distribution of representation for counties on issues facing them. In this redistricting, Robertson County was added to State Representative Mike Denham’s district that previously included only Bracken, Fleming and Mason counties. A similar redistricting changed Bracken County from the district served by Senator Robin Webb to the district served by Senator Katie Stine.

Counties have been working to ensure that there is equal distribution of representation for each of their magisterial districts. In this process, it was discovered that Germantown and Milford had populations shifts above the 10 percent variance allowed by law. With this shift in population, the most noted change will occur on Reservoir Lane and those roads that branch off of it. They will now move to the Milford District. Those residents effected by this and other small redistricting issues have been contacted by Bracken County Clerk Rae Jean Poe and her office with a postcard indicating what precinct they are in and where they are to vote.

However, due to changes in address, some voters may not have been contacted. While most believe by changing the address on their drivers license and billing addresses, they have covered all bases, they actually may not have. It is always advised to let the County Clerk’s office also know so that your voter registration information is also correct. This will help to deflect any trouble you may experience at the polls on election day. Some redistricting has also occurred in other areas. Some roads who have always voted in x district no matter which side you live on, may have the left side still voting in district “x” while the right side of the road has been changed or moved to district “y”.

County Clerk Rae Jean Poe encourages anyone who has moved or lives on roads that have been redistricted to contact her office to ensure you go to the correct polling location to vote in the May Primary on Tuesday, May

20th. Anyone with questions is also encouraged to contact her office either in person or by phone at 606-735-2952.

Current polling locations are: **Foster - Bold’s Carpet**, 154 East Main Street Highway 8, Foster; **Augusta West - Augusta Volunteer Fire Dept.**, 219 Main Street, Augusta; **Augusta East - Augusta Music Bldg.**, 207 Bracken Street, Augusta; **Berlin - Forest Hills Baptist Church**, 661 Haley Ridge Road, Brooksville; **Chatham - Chatham Christian Church**, 3809 Brooksville-Chatham Road, Augusta; **Brooksville - Bracken County High School**, 350 West Miami Street, Brooksville; **Milford - Bracken County High School**, 350 West Miami Street, Brooksville; *(Brooksville and Milford voters should watch for signs showing which area of the school to vote in)* and **Germantown - Germantown Fire Dept.**, 70 Bridgewille Road, Germantown.

The last day to register to vote is Monday, April 21st. Party affiliation can not be changed. That deadline was in December of 2013.

## “Light It Up Blue” during Autism Awareness Month

April is Autism Awareness Month, and many homes and businesses in Bracken County and surrounding counties are supporting individuals on the autism spectrum by participating in the worldwide “Light It Up Blue” campaign. By simply changing your outside light bulbs to blue, you can spread autism awareness, show support for individuals and their families living with autism, and start a conversation about autism by explaining why your lights are blue to those who inquire. Famous buildings and landmarks on all seven continents participated in the blue light campaign on April 2nd, World Autism Day. Locally, the Bracken County courthouse is showing support with blue lights and autism awareness signs, the City of Augusta’s office lights are blue, and in Maysville, support is being shown with blue lights in the Cox building and a blue fountain in downtown Maysville. Recent statistics released by the CDC now state that 1 in 68 individuals are being identified as being on the autism spectrum.

The picture shown is at the property of Tim and Ev Bess, showing support for loved ones and friends on the autism spectrum.
